

What makes us different...?

- ✓ SourceDogg's "off the shelf" solution and flexible contract terms make eProcurement easy

Quick to implement and scalable to your organisations requirements. SourceDogg and Bridge Procurement work with top UK retailers delivering savings and improving procurement process and policy
- ✓ Bridge Procurement's pre-drafted retail specific tender content means less time gathering requirements

Built on best practice, clear requirements help to save time, control cost and facilitate clear communication with vendors
- ✓ SourceDogg offers a simple user experience proven by high adoption across the retail sector

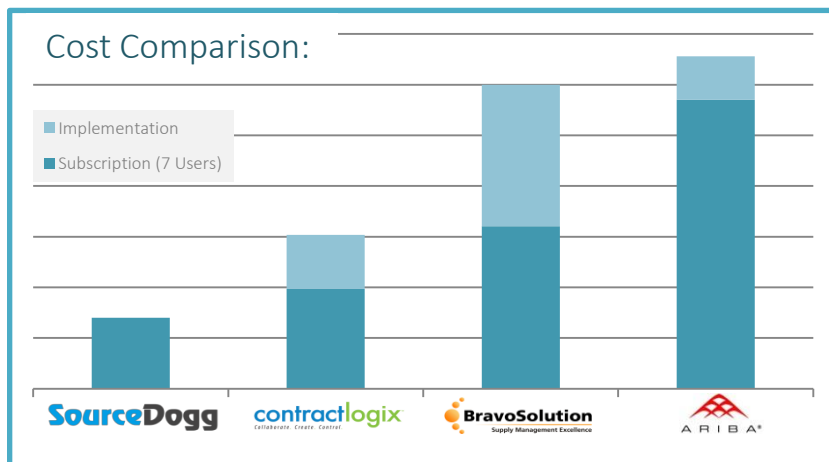

Simple, easy to use interface that has been designed to reduce administration time throughout the Source to Contract process
- ✓ Bridge Procurement's retail sector benchmark data helps identify opportunity savings from the start

Bridge Procurement and SourceDogg provide retail sector insight from day one and ensure your organisation stays in front of the data curve as company goals and strategies evolve
- ✓ SourceDogg is designed specifically for managing both core and tail spend

SourceDogg increases procurement efficiencies and allows organisations to share best practice and improve supplier relationships while reducing risk
- ✓ SourceDogg maximises your organisations procurement data

SourceDogg allows users to quickly and easily organise, search and report on any element of the Source to Contract process
